Denim & Diamonds: More than a party!

A diamond is made from extreme pressure, and that has been the life of a lot of youth in foster care. 💎

This fall, Turning Points for Children is hosting a party with a purpose to celebrate the mission of stronger families and brighter futures.

Denim & Diamonds is more than just an event, more than just one night. The funds raised help support programs that change lives.

The LifeSet Program is one of many services offered at Turning Points that support youth that are aging out of the foster care system. Each year approximately 250 youth age out of foster care with little to no support.

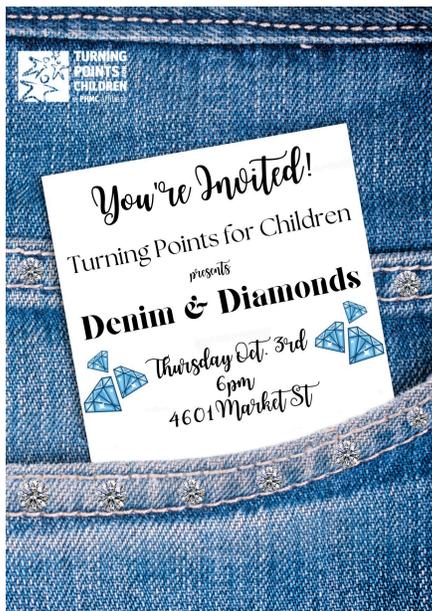

As a teenager, Nicole had recently moved back to Philly, was aging out of foster care, and, because of a house fire, needed to find new housing with her older sister. Nicole got connected with LifeSet through her brother, who had been in the program and recommended it to her after the all it did for him.

Life Set helped Nicole find new housing, get back into school, get groceries for her household, and get multiple jobs. She had been in other programs, but what made Life Set a real turning point was how hands-on it was.

Now, Nicole is shining bright like a diamond! 💎 She's working with Turning Points to get other young people aging out of foster care connected to the same resources that changed her life.

With your gift, you can be an agent of change and create a brighter future for more young people like Nicole.
