STRONGER FAMILIES, BRIGHTER FUTURES

Thank you!

In its 189 years of operation, Turning Points for Children and our legacy organizations have been committed to one thing: helping children and families in Philadelphia to thrive.

2023 brought many changes to our organization, some challenging but all pointing towards new opportunities to return to our original mission of prevention.

We continue to deliver social services to over 4,000 children, youth, and caregivers in Foster Care, Adoption, and our Older Youth Division. With the addition of a new pantry location, at the PHMC Rising Sun Health Center, our FAWN food pantry program served more than 15,000 individuals with emergency food assistance.

Your support helps us continue our 189 year legacy of building stronger families and brighter futures.

Please take a look at our 2023 Dream-Makers Report below and thank you for the dreams you helped make come true!
