Denim & Diamonds was a night of celebrating our mission and those who make it possible

Last night was a night we won't forget! 💎

From the inspirational stories to the fantastic outfits and line dancing, to change makers and impact partners gathering for one common cause in our new headquarters, this event was a hit!

From the moment our guests arrived to when the amazing **Keith Jones, our Emcee** took the podium, we knew it was going to be a special evening.

We recognized our sponsors, our staff, our partners, and our steadfast commitment to the mission of our work: to build Stronger Families, Brighter Futures, and thriving community for all.

Laniyah Little, a former LifeSet youth, shared her story and journey with Turning Points as a hidden gem that is now shining bright. It was a night to celebrate and gather different groups of people who are involved in the work of helping our diamonds—the children and youth we serve—sparkle.

Thank you to everyone for your support at every level, **check out our social media pages for more photos from the night, and be sure to read next month's newsletter where we'll share the story of a family that inspires us for National Adoption Month.**

Denim & Diamonds may be over, but you can still be a diamond-maker!

Help Build Stronger Families and Brighter Futures!
