

Impact Report 2022

**STRONGER
FAMILIES,
BRIGHTER
FUTURES**

A Letter from our Leadership

Turning Points for Children envisions a thriving community for all. Thriving is more than surviving. Surviving is a grim struggle—just barely getting by, fighting overwhelming life issues from day to day. Thriving is flourishing, succeeding, growing healthy and happy families in a most joyful way. This is our hope for every child.

Since 1835, Turning Points for Children, a subsidiary of the Public Health Management Corporation (PHMC), has been a champion for children, going the “extra” mile to provide essential services to vulnerable children and families.

We’re proud that Turning Points staff has a citywide reputation for doing the extra work it takes to make sure a child returns to their family after a stint in foster care. For spending the extra time it takes to make sure that a family has enough food to feed the family for a few more days. For taking the extra steps it takes to advocate for quality systems of care for challenged families so they can raise their children responsibly and without fear.

As we look back to the past with honor, we look forward to the future with hope.

Please know that Turning Points remains committed to child welfare, family strengthening, and improving the lives of children and their families remains. Turning Points will sustain programming that includes LifeSet, Family Finding, Parenting Support Services, Food and Wellness Network, The Bridge/Villa, and Foster Care & Kinship.

Thank you for your ongoing support, and for being part of the caring community of Turning Points. Through government agencies, foundations, individual donors and corporate sponsors, we are able to have greater impact across the region. Because of you, we will continue to build stronger families and give children the hope for a brighter future, a future where every child can thrive.

With gratitude,

David Fair
Deputy Chief Executive Officer

Turning Points Timeline

Since 1835, Turning Points has been a champion for children across Philadelphia

Safe and healthy homes for more than 900 children in Philadelphia

Foster care and kinship support

Families that thrive, not just survive

Program models to help parents and caregivers support their children

Parenting support services

Continuum of care for children and parents at four neighborhood sites

Community Umbrella Agencies*

Support for foster children and connections to biological family

Family Finding

Food and Wellness Network

Two food pantries at school locations in North and West Philadelphia

Supporting former foster youth with housing, employment & violence reduction

Mental health services and substance use treatment for teens

LifeSet

The Bridge/Villa

As we look to the past with honor, we look to the future with hope

We are committed to building stronger families and giving children the hope for a brighter future.

*Program transitioning on June 30, 2023

Family Services

Through our continuum of care, Turning Points for Children provides social services to more than 9,000 individuals and provides emergency food assistance to nearly 12,000 individuals in Philadelphia each year.

Foster Care & Adoption

At the end of 2022, our foster care program provided services to more than **638** homes: 512 served from our general foster care team and 126 received specialized behavioral health case management services. In all, our foster care team served more than 925 children and teens.

Family Finding

Family Finding is a national, evidence-based model that helps youth in foster care reconnect with long-lost relatives or supports in hopes that those individuals may become a permanent fixture in their lives. In FY22, Turning Points Family Finding served more than **864** children and youth. Since 2010, our team has facilitated more than **24,000** connections.

Food and Wellness Network (FAWN)

In 2022, FAWN, our food pantry program, returned to operating in two community schools: Frankford High School, and Tilden Middle School. Students and neighbors were able to stop by throughout the week to pick up fresh groceries for their families. With these brick-and-mortar locations, FAWN was able to run more wellness workshops and outreach events in collaboration with local partners.

Community Engagement

2022 was full of successful community programming thanks to the hard work of our CUA community liaisons. From parent cafes, to Pop-Up tables handing out resources, to community clean-ups, our community engagement teams were a reliable support in their neighborhoods.

SEPTA buses even began stopping in front of Pop-Up tables so that our community engagement teams could hand out resources to bus riders!

Foster Care & Adoption
137 new resource and kinship homes opened for placement.

Family Finding
280 families were provided with case management services to reconnect them with long-lost relatives.

FAWN
Fresh groceries were distributed each month to 600 people, 400 children, and 200 seniors.

Community Engagement
Our Community Liaisons hosted more than 150 events this year, averaging at around 12 each month.

Youth Services

Project FAM!

Project FAM! provides parenting education and support services to strengthen family relationships and promote positive development in children. Throughout the past year they ran 6 groups for parents of all ages with a **course completion rate of 80%**.

FAM! also runs ELECT, a program that provides case management services to pregnant and parenting teens in high school. It was hosted in **20** schools, serving over **73** young mothers in 2022.

The Bridge

The Bridge is an outpatient and residential treatment facility for youth dealing with substance-use issues. It has served over **15,000 teens since 1971**. The Bridge is housed in the same facility as The Villa, a residential program for youth struggling with various challenges including emotional trauma and family struggles.

The Bridge Intensive Prevention Services (BIPS) is an afterschool program for youth ages 10-19 that aims to prevent justice-involvement through individualized, trauma-informed case management services. In 2022, BIPS served **230** youth.

Other Youth Programming

LifeSet provides 24-hour one-on-one case management services to youth who are aging out of foster care with little or no supports, so that they can achieve stability and independence. Since its start at Turning Points in 2017, LifeSet has served more than 660 youth.

Turning Points Housing and Employment programs provide classes that build skills to help achieve housing stability and assist youth with securing job training and placement.

Restorative Justice programming is starting in 2023. Turning Points is partnering with the Philadelphia District Attorney's Office to provide individualized case management services to young people involved in the justice and child welfare systems.

LifeSet 2022 by the numbers

100% reduction in arrests at discharge

96% had employment stability at discharge

85% living independently at discharge

**137 youth discharged
109 currently enrolled**
